

CAPACITY BUILDING & VOCATIONAL TRAINING

At NAMA'A Consulting Group we perceive enhanced skills as a key engine to enabling individuals to be more productive. Skilled labor, significantly contribute to successful implementation of development plans and raises the rate of return on investments.

NAMA'A CONSULTING GROUP team has extensive practical experience in the following areas:

- Business training (soft skills, entrepreneurship skills, leadership skills, strategic business planning, team building, change management, risk analysis, marketing strategies, human resource management, and quality management, etc).
- Financial strategies and planning.
- Design and implement monitoring and evaluation systems.
- Improvement of performance and quality of vocational training centers' graduates.
