

DASPEC Business Incubator

ConsultUs designed a business incubator for women in Erbil in cooperation with the Ministry of Planning which will be managed by Women Empowerment Organization (WEO). ConsultUs worked closely with WEO and its staff in order to identify the financial requirements for projects in Erbil/Iraq in addition to identifying the policies and procedures required to enable women to benefit from available financial programs. ConsultUs also developed an organizational structure for the Women Business Incubator, which included job description, scope of work for each position in the incubator.
